DR. MORRISON NAMED FOR THE NEW DIOCESE OF DULUTH. At Present He Is the Archdencon of Ogdens. burg and the Blocese of Albany-Born in Canada-Asheville to Go Without a Bishop for Another Year at Least,

The session of the House of Bishops of the Protestant Episcopal Church of this country came to an end yesterday noon after it had came to describe the missionary district of Duluth, a new charge created by the last general convention. The Rev. John D. Morrison, D. D., LL. D., Archdeacon of Ogdensburg and the diccese of Albany and rector of St. John's Church, Ogdensburg, was elected on the first ballot by a majority of the Bishops present. According to canon law, he will not be conse-crated until the standing committee of the various dioceses of the church have been notifled and the consent of all the Bishops has been obtained. Then the presiding Bishop will give

notice of his consecration.
It is not expected by Dr. Morrison's friends that he will receive any but the necessary consents of the Bishops and the standing commit-tee. If he should fail, his election by the House of Bishops yesterday would be of no effect. Only forty-three Bishops participated in his election yesterday, and this makes only four more than a majority of all the Bishops, but the Bishops who voted for him feel certain that the election of Dr. Morrison will not be vetoed by any subsequent action.

After the session met yesterday morning the

Rishops went to the Calvary Church in a body, where communion service was held. On return-ing to the Missions House resolutions of regret

where communion service was held. On returning to the Missions House resolutions of regret were adopted that Presiding Bishop Williams was unable to be present and a resolution of condoience to the wife of the Bishop of Northern California, Dr. Wingfield, who has lately become mentally enfeebled, was adopted. Then the House of Bishops adourned sine die.

Dr. Morrison, the Bishop-elect of Duluth, is not yet 50 years old, and was born in Canada of Scotch descent. He was ordained in Canada a priest of the Church of England after he had been graduated from McGill University, Montreal, Whon he was called to be a rector of Christ Church, Herkimer, in the diocese of Albany, a few years after his ordination, he became a member of the Protestant Episcopal Church in the United States. His successful work in Herkimer gained him acall to St. John's Church, Ogdensburg, about fifteen years ago, and for the past six yaars he has been regularly nominated by the cleray of the Archdeacomy of Ogdensburg to the office of Archdeacom, and he has been appointed by Bishop Doane of Albany, who yesterday spoke in the highest terms of Dr. Morrison. Twice he was elected a deputy from the Albany diocese to the General Convention of the Church. Bishop Doane nominated bin yesterday in the session, and he was elected on the first ballot.

"He is a man of great physical strength and of uniting energy." Bishop Doane said yesterday when he announced the election to the reporters: "a strong xpeaker, and a thorough and accurate scholar, particularly of languages, and most especially of Hebrew and Greek, He has shown great power of attracting men to the Church."

It was announced on Tuesday at the commencement of the Residence of the House of

shown great power of attracting men to the Church."

It was announced on Tuesday at the commencement of the session of the House of Bishops that a Bishop would also be appointed to the missionary district of Asheville, but after deliberation it was decided to postpone this until the next meeting of the house, which will proposely take place next year. It was thought that, owing to the financial and political condition of the country just at present, it would be new be to burden the missionary department of the Church with any additional expense. The cost of the Bishopric is estimated at \$40,000 a year, to be spentificythe salary of the Bishop, his assistants, and other necessary expenses. The new district of Duluth has raised \$20,000, or half the necessary sun, so the missions of the Church jet equal to undertaking the remainder of the expense of the one new Bishoppic.

THE PRESETTERIAN STROD. A Lack of Mission Funds and an Over-

The Presbyterian Synod of NewYork resumed its session in the First Presbyterian Church of ooklyn yesterday morning at 10 o'clock. The business consisted chiefly of the reception, disstanding committees. Previous to the business

session there were devotional exercises. Gen. Ralph É. Prime, the Moderator, presided. When the minutes of the Tuesday night meeting were read the feeling against the retirin Moderator, the Rev. Howard Duffield of this city, reappeared. Dr. Duffield was in Princeton and his sermon has to be read on Tuesday night by the stated clerk, the Rev. T. Raiston nith. In the minutes it was recorded that Dr. Duffleid's sermon had been read by the stated clerk, owing to the "unavoidable" absence of

When the minutes had been read, Dr. Gaither of Gloversville made a motion that the word "unavoidable" be striken out, saying that Dr. Duffield had gone to Princeton instead of attending to his duties here. He said he yielded to no one in personal regard for Dr. Duffield, but he thought that the retiring Moderator had failed in his duty to a certain extent. There was considerable discussion on the subject, but it was at last decided that it would be better to refrain from any official expression of opinion, and the matter was dropped.

The appointment of the Rev. William Reice of Troy to the office of Vice-Moderator was announced. It has been decided to present a constraint of the Rev. It has been decided to present a constraint of the Rev. William Reice of his coming semi-centennial celebration, and the Rev. It. H. Stebbins, the Rev. C. Cuthbert Hall, the Rev. William S. Hubbell, and Elders Edward C. Welker and Edward P. Gilbert were appointed a committee to present the address at the meeting this morning.

The most important report of the day was that of the Rev. Charles A. Richmond, Chairman of the Committee on Systematic Beneficence. The report showed that while there had been a most grantfying gain in contributions to the Church, there was still a depressing falling on in the gifts to the Church missions. In reference to the first, the report said:

There has been a gain in gifts to all objects of \$273. of attending to his duties here. He said he

There has been a gain in gifts to all objects of \$273.

649, an average gain per member of \$1.13. Second,
10 benevolent objects represented by the Boards of
the Courte, exclusive of the annual reserve fund,
there has been a gain of \$4.594, or, including the reterre fund, a gain of \$40.847. Third, this synod still
leads the Courte in every department of church benefithe entire Church, in 1896, gave an average of
\$14.99 to 11 objects.

leads that award mevery department of church beach conce. The artire church in 1896, gave an average of \$15.89 to .1 objects.

In reference to the falling off of the gifts to missions, the report said:

In 1890 the Smod acut directly to the Foards \$389.

Sin 1890 the Smod acut directly to the Foards \$389.

Sin 1890 the Smod acut directly to the Foards \$389.

Sin 1890 the Smod acut directly to the Foards \$389.

Sin 1890 the Smod has increased in members 10 per cent in gifts to the foards at the same time. The Smod has secretary with the Smod has increased in members 10 per cent, in gift years she has failen off 164 per cent. In gifts to the foards at the same time. The Smod has not only failed to advance in sitts proportionally to her increase in strangth, but she has actually given less, and at the same time the congreantional expenses have stradily increased; that is ace has been spending every year more and more upon herself, and less and less upon the benevoleases of the Church. Now that must mean one of two things, either the churches are somewhat a bifferent to the benevoleat work of the Church, or eise they lack confidence in the management of that work by the Boards. We do not believe it can be the latter; to be sure, there are always grumblings of critifism, but much of such criticism is based upon insum leat information, and a good deal of the rest of it is the outcome of a dyspeptic constitution or a fault mading temperament.

Dr. Richmond said that he attributed the failing off chiefly to indifference, and the responsibility for that indifference caned, he said, not so much upon the people themselves as upon those who are supposed to instruct and lead them. It was to indifferent ministers he appealed, referring them to that passage in the Scripture "which the Democratic nomines for the Presidency, with all his rich and varied quotation from the Scripture, has not yet seen fit to cire, namely, the Goiden Rule—'As ye would that men should do unto you, do ye even so unto them." He urged that the workers

the 100-cent dollar. Both of his allusions to the present campaign were greeted with loud appliance.

At the afternoon session, when the report of the Foard on Education had been read there was quite a lively discussion. The report said that it had the same complaint to make; too little money. Where in ten years the number of young men who were receiving help to finish their education had nearly doubled, the amount of money available for them had remained at a standstill. Several recommendations for raising more money were made.

The Rev, George W. Knox opposed the adoption of the report. He said the supply of young ministers was now much greater than the demand. Whenever there was a vacancy that paid a living wage, there were hundreds of applicants for it. He advocated that the number of young men receiving help be decreased. He said that the 1,000 who were now receiving aid from this synod were much too many.

The trouble is that too many men unfitted for the work are received into the presbyteries. The Frestyternan Church has always claimed that its binisters were well educated and well filted for the work. How else can we keep up to this standard than by educating our young men! Its too easy for men from other denominations to get into our presbyteries. Ministers are cheap cheaps dirt, and if we want a cheap ministry it is also easy from men from other denominations to get into our presbyteries, and crowd out the men we have fitted for the work. On account of their experience in managing parishes they get the rural charges, and our young men are left out.

The infamous were on many of our presbyteries, "concluded Dr. Clarke, "in admitting

any one who asks, explains this over-production. It is these abominable proceedings that must be put an end to. Stop that process of short courses into a presbytery from other denominations and we will find places for our young men."

The report of the committee was adopted in part and the meeting adjourned. In the evening there was a public meeting in the interest of foreign missions. The business sessions will be continued to-day.

The Women's Synodical Committee of Home Missions of the State of New York held its four-teenth annual meeting in the Second Presbyterian Church. Mrs. William J. Milne of Albany, the President, presided. Mrs. George C. Yeisley, the Recording Secretary, reported that \$65,365 had been received during the year. The meeting will be continued to-day.

Before the Synod adjourned yesterday afternoon it was voted to held the 1897 session in the Westminster Church, Utlea.

Bishop Kenne's Resignation as Trustee WASHINGTON, Oct. 21.—Although the proceedings of the Board of Directors of the Catholic University, which began its session to-day, were hedged about with secrecy, some portion It was anticipated that the vacancies in the Board to be filled to-day would be filled by the selection of churchmen not in sympathy with

contrary, however, proved to be the case.

The resignation of Bisnop Keans as a member of the Board, tendered at the same time that he resigned the headship of the university at the request of the Pope, was declined. This action was, of course, largely due to the personal regard in which the deposed rector is held. Another vacancy has been caused in the Brard by the death of Bishop Marty of St. Cloud, who during his life was a strong adherent of the party opposed to Archbishop Ireland, and it was supposed that his successor would hold similar views. Archbishop Riordan of San Francisco, a friend of Archbishop Ireland, was elected, and this, it is claimed, places a strong and influential member of the American party in the Board. The meeting was presided over by Cardinal Gibbons as Chancellor of the university. Among the other directors present were Archbishop Corrigan of New York, Archbishop Williams of Boston, Archbishop Ryan of Philadelphia, Archbishop Ireland of St. Paul, Archbishop Chappelle of Santa Fé. Bishop Maes of Covington, Bishop Foley of Detroit, Bishop Horatman of Cleveland, Bishop Farley, auxiliary bishop of New York, Father Thomas F. Lee, pastor of St. Matthew's Church of this city, and Mr. Thomas F. Waggaman, also of Washington.

There were present also as ex-officio members of the Board who are not entitled to a vote on any of the questions presented, Archbishops Elder of Cincinnail, Katzer of Milwaukee, Riordan of San Francisco, Kain of St. Louis, Gross of Oreson, and Fechan of Chicago.

Although the fact could not be ascertained with positiveness, there is good reason to believe that three names were agreed upon before the meeting adjourned to-day for presentation to the Pope as successor to Bishop Keane, but those present refused absolutely to discuss the maiter.

Among the churchmen so far named in connection with the rectorship of the university are the following: Father Onaty, head of the Catholic Summer School of Philosophy at Plattsburg, M. Y.; Father Brann of St. Agnes's Church, New York: the very Rev. Hewit of the Paulist Congression, New York: Dr. Edward P. Allen, head of St. Mary's Seminary, Emmittsburg, Md.: Bishops Spaulding of Peoria, Horstman of Cleveland, a request of the Pope, was declined. This action was, of course, largely due to the personal re-
